# THE LIBRARY:

A place where you gain knowledge and grow your imagination.

Everyone can participate and it's very easy to sign up for this adventure. Go to [osanablibrary.beanstack.org](http://osanablibrary.beanstack.org) to subscribe and log your reading hours. Everything you read is welcome, even if you read a recipe to cook something new for your family or a manual with instructions, that will count towards your reading time. You can read something daily and log it in, incentives will be given every time a reader completes a task.

*"The experiences you live and the knowledge you gain are things that no one can take away from you."*

-Mrs. Glenid Rivera Cuevas

Written by Melanie Martinez  
Photos & Layout by Changwan Kim

With Read, Renew, Repeat, families will embark on a journey this summer, get rewards and prizes, while learning to protect species from extinction, maintain and restore habitats, how properly dispose of waste, recycle, improve our environment, and many other topics about nature. This program integrates reading with arts, science, and crafts for an experience beyond the books to encourage eco-friendly habits. Focusing on the central topic, which is the oceans, Harmony the Mermaid is going to visit Osan Library to talk about how to protect her home, the ocean. In this program, you can also find stories and crafts about recycling, the sea, Juneteenth, gardening for a greener tomorrow, Flag Day history, Harry Potter's Birthday, and many other cool events for the family.

The Summer Reading Program is tailored for students and parents to keep reading and learning during the summer break. It has been extended for mothers with babies to read to them and prepare them for school years while they discover critical developmental skills. The same goes for the adults who don't have kids or are in the collegiate phase, this program helps them make reading a habit and something fun to do, transforming minds and hearts.

As the weather gets warmer and the end of the school year approaches, children eagerly anticipate the freedom and adventure that summer brings. Among the excitement of lazy afternoons and popsicle-stained fingers lies an opportunity for something greater; have a deeper connection with the Earth. How? "Read, Renew, Repeat," a Summer Reading Program with a mission to teach environmental consciousness and inculcate recycling practices among the younger generation.

There are 5 categories: babies, Pre-K, kids, teens, and adults. Prizes for the top three winners are going to be for the categories of kids, teenagers, and adults alongside the incentives. The Summer Reading Program Kicks Off with a Grand Opening on Tuesday, 11 June at 1030. They will host a field day for the whole family with events, fun and memorable activities at the Library. The winners of the Summer Reading Program will be announced during the Grand Finale at MiG Alleys Bowling Center on Friday, 9 August at 1300. Make sure to subscribe for this amazing opportunity and visit the Osan Library where you'll find a sense of community bonding, child entertainment, and lots of learning opportunities.

"The greatest achievement you will find is knowledge. When someone is well informed they can make better decisions and be well aware of their surroundings. The experiences you live and the knowledge you gain are things that no one can take away from you," said the library Director, Mrs. Glenid Rivera Cuevas. She talks about how amazing the Library at Osan Air Base is. "I always compare a library with a pyramid. A Pyramid was built as a monument to house the tombs of the pharaohs with treasures in it, and it was closed, and nobody had access to it. The library has a lot of treasures inside, and everyone has access to it."

The Osan Library is a quiet and calm place to come and study, not only to check out a book and read it, but also for varied programs, events, and activities for everyone. Anyone, no matter the age, can develop new skills and abilities with programs tailored for them. You can find books for everything, new recipes, information on how to do taxes, complete homework or a thesis. "We are in a military installation, and my part in supporting the mission is to make sure we provide a safe and harmonious space for all service members and their families," Mrs. Rivera Cuevas concluded.
